

## RAINWATER MAINTENANCE & TREATMENT

- Clarifies the water of an outside cistern or butt
- Eliminates odours.
- Reduced limestone and softens the water.

### CHARACTERISTICS :

When you use rainwater for your toilets, watering or cleaning, the water may sometimes be cloudy or milky or give off unpleasant odours. This product clarifies the water in the outdoor tank or reservoir and eliminates odours. Its use reduces scale and softens the water. After 48 hours, the treated water is suitable for watering of plants or vegetable gardens or pet consumption. Chlorine-free.

### DIRECTIONS FOR USE :

Cap contents: 50 g

Dose: 2 full caps for 250 litres of water every 2 months.

Repeat the operation in the event of heavy rainfall.

WAIT 48 HOURS BEFORE USING THE TREATED WATER.

### RECOMMENDATIONS :

- Close properly after use.
- Store the box in a cool, dry place.

\* The product or its components do not come from organic farming. The term «bio» or «biological» refers to enzymes derived from micro-biological organisms.
